- Built e-commerce and commercial websites for small businesses using Shopify, WordPress, and Squarespace.
- Designed and managed personal art sales through e-commerce markets as well as vending at local pop-up markets.

### EDUCATION

Nashville Software School

SOFTWARE DEVELOPMENT

- Intensive 6-month bootcamp with a focus on building full-stack applications using React, ADO.NET & SQL.
- Developed a deep understanding of software architecture and problem-solving techniques.
- Gained proficiency in a range of technologies including .NET Framework, SQL, React, C#, HTML, CSS, and JavaScript.

School of the Art Institute of Chicago

BACHELOR OF FINE ART'S

- Film, Video, New Media & Animation
- Deans List
- Goldman Sachs Scholar

### TECHNICAL STACK

- C# | .NET STACK | SQL
- NEXTJS | REACT | HTML
- JAVASCRIPT | CSS | TYPESCRIPT

### PROJECTS

COOKIJAR is a point-based task tracking application with user-defined rewards built with React using JSON server.

- This application allows users to define their own rewards and point system for completing tasks.
- When the user creates a new task, they are prompted to select a set amount of points to be rewarded once that task is marked as complete.
- The user can then view their tasks and mark them as complete, which will add the points to their total.
- Once the user has accumulated enough points, they can redeem them for a reward of their choosing.

### TECH

- REACT | BOOTSTRAP/REACTSTRAP | JAVASCRIPT | JSON SERVER | REST API | CSS | HTML
